

# The Water Triad Spread

## Venturing into Mystery

### Preparing for the Reading

*If you enjoy bathing before a reading, I suggest using Road Opener oil or soap as part of your ritual.  
Alternatively, simply wash your hands before you begin.*

Clear your reading space of extraneous objects.

Place a bowl of water and a burning candle on your table. Add a drop of Road Opener, jasmine, or a psychic blend oil to the water or dress your candle with the oil beforehand.

Lay out The Chariot, Death, and The Moon cards as shown.

Dip your finger into the bowl of water and touch both of your temples, your third eye, and your throat with a drop of water. These represent intellectual and spiritual understanding and the ability to voice the messages you receive.

Hold the deck in your hands until you feel a connection. Shuffle the cards three times. With cards in hand, tap the deck three times. In a way appropriate to you, ask spirit to guide you toward understanding. Cut the cards once. Place each drawn card face down, revealing one at a time as you interpret them.

Interpret each pair of cards before moving to the next.

When you are finished, close your reading in your desired way and blow out your candle.
